Product Overview

Professional Leather Welding Gauntlets

These heavy-duty welding gauntlets are engineered for superior hand protection during demanding welding operations. Constructed from high-quality split leather, they provide excellent heat, abrasion, and puncture resistance against sparks and spatter. With reinforced palm and finger areas, these gloves ensure enhanced grip and durability for various welding processes including MIG, TIG, and stick welding.

Material & Construction

Available Lengths

- 14 inch
- 16 inch

Leather Material Options

Cow Split Leather, Pig Split Leather

Performance Features

Key Protection Features

Heat Resistant • Abrasion Resistant • Puncture Resistant • Extended Cuff

Suitable Welding Processes

- MIG Welding
- TIG Welding
- Stick Welding
