

LED AC Bulb 5W/7W/9W/12W

This LED AC bulb is designed for efficient and reliable lighting. It is available in multiple wattage options including 5W, 7W, 9W, and 12W.

Product Overview

Efficient LED Lighting Solution

This LED AC bulb series offers a reliable and energy-efficient lighting solution suitable for a wide range of professional and residential applications. Designed for consistent illumination, these bulbs are available in multiple wattage options to meet specific brightness requirements. Their durable construction and advanced LED technology ensure a long operational lifespan and significantly reduced power consumption compared to traditional lighting.

Technical Specifications

Available Wattage Options

- 5W
- 7W
- 9W
- 12W

Compatible Base Types

B22, E27

Key Features

Energy Efficiency

Energy Efficient • Long Lifespan
