Product Overview

Professional Commercial Wrap Light

This durable LED commercial wrap shop light features a robust SPCC housing designed for excellent heat dissipation and long-term reliability. Engineered for versatility, it is available in 2ft and 4ft lengths and utilizes a glare-free extrusion PC lens for uniform illumination. With a high efficacy of up to 130lm/w and a wide 9-inch profile, it is an ideal solution for retrofitting existing fixtures in commercial workshops, garages, and retail spaces.
