Overview

High-Performance LED DRL Kit

This LED Daytime Running Light (DRL) kit is specifically designed for the Toyota Corolla 2019-on models, featuring integrated sequential turning light functions. Engineered for both safety and style, these lights provide high visibility with Osram LED technology and a modern aesthetic. The durable construction and included wiring harness ensure a seamless integration with the vehicle's electrical system for long-lasting performance in various weather conditions.

7 W

Power Consumption

650 LM

Max Brightness

12 V

Voltage

Lighting Specifications

Daytime Running Light (DRL)

Feature	Specification
Light Source	OSRAM LED
Color Temperature	6000-7000K
Luminous Flux	600-650 LM
Light Color	White

Sequential Turning Light

Feature	Specification
Color Temperature	1700-1900K
Luminous Flux	500-550 LM
Light Color	Amber
Function	Sequential LED

Compatibility & Installation

Installation Components

- Pre-wired connectors
- Wiring harness for DRL system
- Sealed bag with additional terminals (yellow and red)
- Integrated DRL covers

Vehicle Compatibility

Toyota Corolla 2019-ON
