

LED Driver-On-Board High Bay Light

This LED driver-on-board (DOB) high bay light is designed for industrial and commercial applications. It features energy-efficient LED technology and high lumen output, ideal for warehouses and factories.

Product Overview

High-Performance Industrial Lighting

This LED Driver-On-Board (DOB) High Bay Light is engineered for demanding industrial and commercial environments. Featuring a robust, one-piece aluminum die-casting design, it ensures durability while optimizing thermal management. The integrated DOB technology simplifies installation and reduces maintenance, making it a cost-effective and energy-efficient solution for warehouses, factories, and large indoor spaces.

Design & Construction

Housing Material	Aluminum Die-casting
Key Design Features	One-piece design, Foldable ring, Integrated Driver-On-Board
Thermal Management	Radial fin heat sink for efficient cooling

Logistics

Packaging Benefit	Foldable ring design optimizes packaging and reduces transportation costs
-------------------	---

Performance Metrics

Driver Technology	DOB (Driver-On-Board)
Cost Profile	Cost-effective solution
