

LED Energy-Saving Lamp for General Illumination

This high-efficiency LED lamp is designed for general illumination purposes. It features multiple LED emitters for enhanced brightness and uniform light distribution.

Product Overview

High-Efficiency Illumination

This LED energy-saving lamp is designed for general illumination, offering a balance of performance and energy efficiency. Engineered with multiple LED emitters, it provides enhanced brightness and uniform light distribution suitable for both residential and commercial environments. The lamp features a mercury-free, environmentally friendly design and is built for a long operational lifespan to reduce maintenance needs.

Technical Specifications

Available Models

- ZK5018Z-E27/E14-1W
- ZK5018Z-E27/E14-2W
- ZK9018-MR16-1W
- ZKST62 / L E27 3W

Power Consumption

1 W

Low Power Model

3 W

High Power Model

Socket Compatibility

E27, E14, MR16

Features

Key Benefits

Energy Saving • Mercury-Free • Uniform Light Distribution • Long Lifespan
