

LED Filament Bulb 6W

This LED filament bulb consumes 6W of power. It has a color temperature of 3000K and an average lifespan of 25000 hours.

Overview

High-Efficiency LED Filament Lighting

This LED filament bulb combines classic aesthetics with modern energy-efficient technology. Designed for versatility, it offers multiple power options and color temperatures to suit various professional lighting environments. With an extended lifespan of up to 25,000 hours and significant energy savings, this bulb is a reliable choice for long-term illumination needs.

Technical Specifications

Power Options	4W, 6W, 8W
Operating Voltage	AC170-265V
Socket Compatibility	E27, B22

Performance Metrics

Performance Highlights

100 Lm/w
Luminous Efficacy

25000 h
Lifespan

Color Temperatures

3000K • 4000K • 6500K

Compliance & Safety
