

# LED Flat Panel Light

This LED flat panel light provides uniform and energy-efficient illumination. Its slim profile and durable construction make it suitable for various indoor applications.

## ADDITIONAL IMAGES

## Product Overview

### Professional LED Flat Panel Lighting

This high-performance LED flat panel offers a classical luminaire design optimized for professional indoor environments. Engineered for high efficacy and consistent color quality, it provides comfortable illumination with a low UGR<19 rating to minimize glare. It is an ideal energy-efficient solution for offices, hospitals, and commercial spaces, reducing operational costs by up to 50%.
