Product Overview

High-Performance LED Flood Lighting

This high-intensity LED floodlight is engineered for versatile illumination in both indoor and outdoor environments, including stadiums, arenas, hotels, and industrial plants. Constructed with robust, die-cast aluminum, it ensures long-lasting durability and weather resistance. The advanced optical lens design achieves over 98% light transmittance, providing bright and uniform distribution for security, landscape, and general area lighting needs.

Construction & Design

Material	Punching press die-cast aluminum
Light Transmittance	98 %

Installation & Versatility

Mounting Methods

- Wall mounting
- Ground mounting
- Ceiling mounting

Key Features	Weather-proof, Die-cast Aluminum, High Transmittance, Adjustable Bracket
--------------	--

Applications

Suitable Applications

Stadiums • Arenas • Hotels • Walls • Plants
