Product Overview

Versatile LED Floodlight Solution

This high-performance LED floodlight series is designed for versatile indoor and outdoor illumination, offering a wide power range from 10W to 200W. Built with a robust die-cast aluminum housing featuring integrated radiating ribs, it ensures excellent heat dissipation and long-term durability. The design prioritizes ease of maintenance and energy efficiency, making it an ideal choice for security, landscape, and general area lighting applications.

Technical Specifications

Wattage Range	10W - 200W
Luminous Efficiency	90 lm/w
Beam Angle	>100°
Housing Material	Die-casting aluminum

Features & Accessories

Optional Accessories

- PIR Motion Sensor (IP65 rated)
- Spike (Powder-Coated Black Finish)

Key Features

Private Tooling, Easy Maintenance, Heat Dissipation Design, Energy Efficient
