

LED Indicator Mushroom Head Pushbutton Switch

This mushroom head pushbutton switch features a red LED indicator light. It is designed for controlling circuits with AC voltage up to 660V and DC voltage below 400V.

Product Overview

Specializing in production of buttons and indicators since 1997

High-visibility red LED indicator ensures clear signaling in industrial control panels.

Industrial Mushroom Head Pushbutton Switch

This LED indicator mushroom head pushbutton switch is engineered for high-performance control circuits in industrial environments. It supports AC voltages up to 660V and DC voltages below 400V, featuring a durable zinc alloy and high-grade anti-flam plastic construction. With integrated bright LED illumination, it provides clear visual status signaling, making it ideal for safety, emergency, and warning applications.

Technical Specifications

XDL31-EWC45

Illuminated
Emergency stop
Spring return
with integral LED

Latching

● Red $\Phi 40$ XDL31-EWC45

● Red $\Phi 40$ XDL31-EWCZ45

Dimensioned view of the mushroom head pushbutton with contact block configuration.

Mechanical Life

300000 cycles
Standard Pushbutton

30000 cycles
Emergency Stop

Rated Insulation Voltage	600 V
Operating Temperature Range	-5°C to +55°C
Protection Grade	IP40, IP54, IP65, IP66, IP67, IP68

Compliance & Standards

Certifications

CE • ISO 9001 • RoHS • UL

International Standards

- IEC60947-5-1
- GB/T14048.1
- GB14048.5

Operating Parameters

Fastening Torque

0.8 Nm

Relative Humidity

35% - 85% RH
