

LED Light Bulb with Heat Sink

This LED light bulb features a frosted bulb and metallic heat sink. It is designed for efficient heat dissipation and long-lasting performance.

Product Overview

Efficient Thermal Management

This LED light bulb is engineered with a focus on durability and performance, featuring a specialized metallic heat sink for superior thermal management. Its compact design and frosted glass finish provide a soft, diffused light output suitable for a wide range of general illumination applications. The standard screw base ensures compatibility with most existing lighting fixtures, making it a versatile choice for professional environments.

Technical Specifications

Heat Sink Material	Durable metal alloy
Design Features	Compact Design, Frosted Bulb, Efficient Heat Dissipation

Installation

Base Type	Standard screw base
-----------	---------------------

Performance

Light Quality	Soft, diffused output
