

LED Light Module 3 x 1W

This LED light module operates at 12V/24V. It contains 3 LEDs at 1 watt each and has a PC lens.

Overview

Compact LED Illumination Module

The LTD31B is a compact and powerful LED light module engineered for versatile applications, including emergency and security lighting. Featuring high-intensity LEDs in a durable, weather-resistant black housing, this module ensures reliable performance in diverse environmental conditions. Its rectangular design and integrated mounting holes facilitate easy installation, while the bright, focused illumination makes it an ideal solution for signaling, warning, and general lighting needs.

Technical Specifications

LED Configuration

3 pcs

LED Count

1 W

Power per LED

Housing Properties

Weather-resistant, Durable, Black Finish, Rectangular

Installation & Usage

Typical Applications

- Emergency Lighting
- Security Lighting
- Signaling
- Warning Systems
- General Illumination

Mounting

Integrated mounting holes
