

LED Linear Light Fixture

This LED linear light fixture is designed for various lighting applications. It features a durable black housing with a clear diffuser, providing efficient and uniform illumination.

Overview

Professional LED Linear Lighting

This LED linear light fixture is engineered for versatile lighting applications across commercial, industrial, and residential environments. Featuring a durable black housing paired with a clear diffuser, it ensures efficient and uniform light distribution. The design includes a weather-resistant grey cable gland and integrated mounting brackets to facilitate secure, straightforward installation.

Technical Details

Housing Material	Durable Black Housing
Diffuser Type	Clear

Installation

Mounting System	Integrated Mounting Bracket
Connection Type	Grey Cable Gland

Applications

Recommended Uses	Commercial, Industrial, Residential
