

LED Recessed Smart Downlight

This LED smart downlight is designed for recessed ceiling installation. It provides energy-efficient and bright illumination suitable for residential and commercial applications.

Product Overview

Smart LED Recessed Downlight

This 9W smart downlight offers versatile lighting control, featuring a tunable white range from 2700K to 6500K plus full RGB capabilities. Designed for seamless integration into smart home ecosystems via Tuya Wi-Fi, it provides professional-grade illumination with high color rendering. The compact design and external driver configuration ensure easy installation in both residential and commercial ceiling applications.
