

LED Rechargeable Wall Mount Lantern

This wall mount lantern features a rectangular array of high-intensity LEDs for bright and even illumination. It is designed for emergency and general area lighting with a rechargeable battery, durable plastic housing, carrying handle, and fold-out stand for versatile placement.

Product Overview

Versatile Emergency Illumination

This rechargeable LED wall-mount lantern provides a reliable and flexible lighting solution for both indoor and outdoor environments. Equipped with 60 high-intensity LEDs, it offers adjustable brightness settings to suit various lighting needs. Designed with safety in mind, it features built-in overcharge and over-discharge protection to extend the lifespan of its dual lead-acid batteries.
