

LED Rotating Warning Light

This LED rotating warning light provides a high-visibility signal for various applications. It features durable construction and is available in amber, blue, orange, and red.

Product Overview

Durable rotating warning light suitable for emergency and industrial applications.

High-Visibility Rotating Warning Light

This LED rotating warning light is designed to provide high-visibility signaling for emergency vehicles, industrial environments, and construction sites. Featuring a robust combination of a PC lens and an ABS base, it ensures durability in demanding conditions with an IP65 waterproof rating. The unit operates efficiently on dual 12V/24V DC systems and utilizes 40 powerful 5730 LED chips for maximum safety awareness.

Technical Specifications

IP Rating

IP65

Working Voltage

DC 12/24V

Light Source

40 chips

Design and Build

Various configurations available including magnetic base mounts for versatile deployment.

Color Options

- Amber
- Blue
- Orange
- Red

Construction Materials

Polycarbonate Lens, ABS Base

Installation

Magnetic with cigarette lighter plug

Commercial Terms

Warranty

12 months

Minimum Order Quantity

200 pcs

Standard Packaging

20 PCS/CTN
