

LED Safety Warning Triangle with Magnetic Base

This reflective safety triangle features LED illumination for increased visibility. It is equipped with a magnetic base for secure mounting to metallic surfaces and includes a hanger for alternative placement.

Product Overview

High-Visibility LED Safety Triangle

This advanced LED safety warning triangle is designed for maximum visibility in low-light and emergency conditions. Featuring a vibrant yellow reflective background and high-intensity red reflective stripes, the unit ensures immediate detection by other drivers. Equipped with both an integrated magnetic base for secure attachment to metallic surfaces and a versatile hanger, it offers flexible mounting options for diverse road and industrial environments.
