

LED Side Mirror Turn Signal Light

This LED side mirror turn signal light enhances vehicle visibility and safety. It features bright amber LEDs in a durable, weather-resistant housing and is designed for easy installation.

Product Overview

Enhanced Visibility and Modern Design

This LED side mirror turn signal light is engineered to significantly improve vehicle visibility and road safety. Featuring a series of high-intensity amber LEDs, the unit is encased in a durable, weather-resistant housing designed for long-lasting performance. Its curved, sleek profile allows for seamless integration with existing side mirror assemblies, offering a modern aesthetic upgrade with low power consumption.
