Product Overview

High-Performance LED Canopy Lighting

This slim canopy light is engineered for durability and efficiency in commercial and industrial environments. Featuring a robust die-cast aluminum housing and a shatter-resistant polycarbonate lens, it is built to withstand harsh conditions while providing uniform illumination. With versatile mounting options and optional smart sensor integration, it is an ideal solution for parking garages, warehouses, and covered walkways.

Technical Specifications

Construction Materials

- Die-cast aluminum housing
- Shatter-resistant polycarbonate prismatic lens

Certifications & Ratings

DLC Listed, ETL Certified, IP65 Rated

Dimming

1-10V Dimming

Installation & Features

Mounting Methods

Pendant • Ceiling • Wall

Sensor Options

Yes

Sensor Type

Built-in microwave sensor
