

LED Spotlight Bulb with Aluminum Heat Sink

This LED spotlight bulb features a reflector design and an integrated aluminum heat sink for efficient thermal management. Designed for directional lighting applications, the bulb provides a focused beam of light and is suitable for both residential and commercial lighting.

Product Overview

High-Performance LED Spotlight

This LED spotlight bulb is engineered for precision directional lighting, making it an ideal choice for both residential and commercial applications. It features a specialized reflector design that ensures focused beam output. Built with an integrated aluminum heat sink, the bulb provides superior thermal management to maintain consistent performance and extend the lifespan of the LED components.

Technical Specifications

Thermal Management	Integrated aluminum heat sink
Base Type	Standard screw base
Beam Characteristics	Directional Lighting, Focused Beam

Application

Suitable Environments

- Residential Lighting
- Commercial Lighting
