Overview

High-Performance LED Road Lighting

This high-performance LED street light is engineered for efficient and reliable illumination across various outdoor environments, including main and secondary roads, parks, and city squares. Featuring a robust, IP66-rated construction, it ensures durability and long-term performance in demanding weather conditions. With a versatile power range of 30W to 240W and high luminous efficacy, this luminaire provides uniform light distribution while offering significant energy savings over traditional lighting systems.
