

# LED Street Light 20W-80W

This LED street light is designed for outdoor illumination, with power consumption ranging from 20W to 80W. It provides efficient and reliable lighting solutions for outdoor lighting systems.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Outdoor Lighting Solution

This LED street light offers a robust and energy-efficient solution designed for demanding outdoor environments. Engineered with high-performance chips and advanced thermal management, it ensures reliable illumination for roadways, parking lots, and public spaces. The unit supports versatile power configurations and is built for easy installation, making it an excellent choice for both new projects and retrofitting existing infrastructure.

## Technical Specifications

### Power Consumption Range

<b>20 W</b> Minimum Power	<b>80 W</b> Maximum Power
