

LED Street Light for Outdoor Illumination

This LED street light is designed for efficient and reliable outdoor illumination. Its robust housing features an integrated heat sink and multiple high-output LEDs for uniform light distribution.

Product Overview

High-Performance Outdoor Illumination

This high-power LED street light is engineered for reliable and efficient outdoor lighting across various environments. Featuring a robust housing with an integrated heat sink, it ensures optimal thermal management for extended operational life. The unit utilizes multiple high-output LEDs paired with a frosted lens to provide uniform, glare-free light distribution suitable for streets, parking lots, and large area lighting.

Technical Specifications

Design Highlights

- Robust housing
- Integrated heat sink
- Frosted lens for uniform distribution
- Durable, weather-resistant construction

Ideal Applications

Street Lighting, Parking Lots, Area Lighting
