

LED Street Light for Outdoor Illumination

This LED street light is designed for efficient and reliable outdoor illumination. Its robust housing features an integrated heat sink and high-output LEDs for bright and uniform light distribution.

Overview

High-Performance Outdoor Illumination

This robust LED street light is engineered for reliable and efficient outdoor lighting across diverse environments. Featuring a durable, weather-resistant design, it ensures consistent performance even in extreme temperatures ranging from -50 to +60. With advanced surge protection and high-luminous efficacy, this unit is an ideal solution for streets, parking lots, and large area lighting applications.

Technical Specifications

Available Power Ratings

- 50W
- 100W
- 150W
- 200W

Luminous Efficacy

90 lm/W

Minimum Efficacy

Durability & Protection

Ingress Protection

IP65 • Waterproof • Dustproof

Surge Protection

9000 V

Operating Temperature Range

-50 to +60

Build Features

Sundering Resistance, Robust Housing, Integrated Heat Sink
