Product Overview

High-Performance Outdoor Lighting

The ST05 LED street light is an advanced lighting solution engineered for roadways, parking lots, and pedestrian zones. Its robust housing features integrated heat sinks for superior thermal management, ensuring long-lasting reliability in diverse environmental conditions. Designed for both new installations and retrofits, this fixture delivers uniform illumination while significantly reducing energy consumption and maintenance needs.

Key Features

Primary Benefits

- High lumen output with energy efficiency
- Corrosion-resistant finish for durability
- Advanced thermal management system
- Compatible with smart city remote monitoring
- Flexible dimming control options
