Product Overview

High-Performance Urban and Industrial Lighting

The ST11 LED street light is an advanced lighting solution engineered for demanding urban and industrial environments. It features robust construction and efficient LED technology to ensure long-lasting, reliable illumination for roadways and parking facilities. Designed with modularity in mind, the luminaire offers easy maintenance and optimal thermal management for consistent performance.

Key Features

Performance Metrics

1

Modular Construction

1

Glare Reduction

Application Compatibility

Roadways, Parking Lots, Industrial Areas, Urban Infrastructure

Technical Specifications

Luminaire Specifications

Feature	Benefit
Design	Modular for easy maintenance
Thermal Management	Optimized for long life
Durability	Withstands harsh environments

Product Qualities

Energy-Efficient • Weather-Resistant • Sustainable Design
