

LED Street Light with Aluminum Housing

This LED street light features a die-casting aluminum housing with a PC lens. It is designed for city centers, parks, roads, and commercial districts.

Overview

High-Efficiency LED Street Lighting

This professional-grade LED street light features a durable die-casting aluminum housing with a high-quality paint finish and a protective PC lens. Designed for reliability and ease of maintenance, it serves as an effective, energy-saving replacement for traditional HID lighting fixtures. With an IP65 ingress protection rating and IK08 impact resistance, it is built to perform consistently in diverse outdoor environments.
