

LED Surface Mount Luminaire

This LED surface mount luminaire is designed for both indoor and outdoor use. It features a durable housing and sealed lens, providing excellent protection against environmental factors.

Overview

Robust LED Lighting Solution

This LED Surface Mount Luminaire is engineered as a robust and energy-efficient lighting solution suitable for both indoor and outdoor environments. It features a durable housing and a sealed lens that provides excellent protection against dust, moisture, and impact, ensuring longevity in demanding settings. Designed for easy installation, it includes a convenient wiring terminal for secure electrical connections, making it an ideal choice for warehouses, parking garages, and stairwells.

Key Features

Protection & Durability

Dust Resistant • Moisture Resistant • Impact Resistant

Ideal Applications

Warehouses, Parking Garages, Stairwells, Indoor, Outdoor

Technical Specifications

Installation Method	Surface Mount
Electrical Connection	Integrated Wiring Terminal
Light Source	Integrated LED
