

LED Switch Light for Cabinets

This compact LED switch light is designed for use in closets and cabinets, or as a general-purpose light source. It features a simple on/off switch and utilizes energy-efficient LEDs to provide bright illumination while minimizing power consumption.

Product Overview

Versatile Cabinet Lighting

This compact COB switch light provides a reliable and efficient lighting solution for cabinets, closets, and small spaces. Designed for ease of use, it features a simple ON-OFF operation and multiple mounting options, including a hook, magnet, and velcro tape. Its lightweight construction and battery-powered design make it an ideal portable light source for various professional and residential applications.
