Product Overview

High-Performance LED Tail Light Assembly

This versatile LED tail light assembly is engineered for automotive and trailer applications, providing reliable lighting solutions for heavy-duty use. Designed with a multi-functional layout, it integrates stop, rear position, turn signal, and reversing lamps into a single durable unit. The high-visibility LED array enhances road safety, while the robust construction ensures long-lasting performance in various weather conditions.

Technical Specifications

Integrated Functions

- Stop Lamp
- Rear Position Lamp
- Turn Signal Lamp
- Reversing Lamp

Key Features

LED Technology • Weatherproof • High Visibility

Certifications

E-mark

Application

Automotive and Trailer
