Product Overview

Professional LED TV Assembly Components

These LED television components are available in both SKD (Semi-Knocked Down) and CKD (Completely Knocked Down) formats, providing a flexible and cost-effective solution for TV manufacturers and assemblers. The M6 model series supports multiple screen sizes including 32, 38.5, and 43 inches, featuring a modern full-screen frameless design. Built with durable ABS and metal materials, these components ensure high-quality display performance and reliable integration for various production needs.
