

LED Tube Light

This LED tube is designed for efficient and long-lasting lighting solutions. It features a durable construction with a cylindrical diffuser that provides uniform light distribution.

Product Overview

Efficient Lighting Solution

This LED tube is designed for efficient and long-lasting lighting solutions, featuring a durable construction with a cylindrical diffuser that provides uniform light distribution. Equipped with two-pin connectors, it ensures easy installation and compatibility with standard fixtures. Its energy-efficient LED technology reduces power consumption and extends lifespan, making it an ideal replacement for traditional fluorescent tubes in residential, commercial, and industrial applications.

Compliance & Standards

Certifications

CE, RoHS, ERP

Technical Features

Design Features

- Durable construction
- Cylindrical diffuser
- Uniform light distribution

Suitable Applications

Residential • Commercial • Industrial

Connector Type

Two-pin connector
