Product Overview

Industrial High Bay Lighting Solution

This UFO high bay light is engineered with a durable die-cast aluminum shell, ensuring excellent heat dissipation and long-lasting performance in demanding environments. Designed for versatility, it offers multiple wattage and beam angle options to suit various ceiling heights and lighting requirements. With easy installation via a top-mounted hook and optional sensor compatibility, it is an ideal lighting solution for warehouses, factories, and stadiums.

Performance & Technical Specs

Key Performance Metrics

150 lm/w
Efficacy

50000 hours
Average Life

Available Wattage

- 100W
- 150W
- 200W

Beam Angle Options

- 60°
- 90°
- 120°

Input Voltage

120-347V

Design & Installation

Housing Material	Die-cast aluminum
Mounting Method	Top installation hook
Sensor Compatibility	Yes
Recommended Applications	Warehouse, Factory, Stadium
