

LED Vapor Tight Light Fixture

This LED vapor tight light fixture is designed for damp or wet locations. The polycarbonate housing and lens offer protection against dust, moisture, and corrosion.

Product Overview

Durable Illumination for Demanding Environments

This LED vapor tight light fixture is engineered specifically for damp and wet locations, offering robust protection against moisture, dust, and corrosion. Featuring a high-quality polycarbonate housing and lens, it ensures long-lasting durability and reliable performance. Designed for efficiency and bright, uniform illumination, this fixture is an ideal lighting solution for parking garages, car washes, and food processing facilities.

Key Features

Ideal Applications

- Parking Garages
- Car Washes
- Food Processing Plants
- Damp Locations
- Wet Locations

Protection Features

Vapor Tight, Dust Resistant, Moisture Resistant, Corrosion Resistant

Technical Details

Performance Benefits

Energy Efficient • Long-lasting • Uniform Illumination • Easy Installation • Low Maintenance

Construction Materials

Polycarbonate housing and lens
