

LED Vapor Tight Light Fixture

The LED Vapor Tight Light Fixture is a durable and energy-efficient lighting solution. It provides bright, uniform illumination while minimizing energy consumption and reducing maintenance costs.

Product Overview

Durable Industrial Lighting

The LED Vapor Tight Light Fixture is a robust, energy-efficient lighting solution engineered for demanding environments. Its sealed construction provides superior protection against moisture, dust, and corrosion, making it an ideal choice for wet locations, industrial facilities, and food processing plants. With high-output LEDs, it delivers bright, uniform illumination while significantly reducing energy consumption and maintenance requirements.

Key Features

Protection Features

Moisture Resistant • Dust Proof • Corrosion Resistant

Suitable Environments

Wet Locations, Industrial Facilities, Food Processing Plants
