Overview

High-Performance Outdoor LED Wall Pack

This versatile LED wall pack is designed for reliable outdoor security and general area lighting in commercial and industrial settings. Utilizing advanced DOB technology, it offers superior energy efficiency, replacing traditional 175-400W MH or HID fixtures with energy savings of up to 75%. With a durable die-cast aluminum housing and a lifespan of 100,000 hours, it provides a long-lasting, low-maintenance lighting solution.
