Product Overview

Innovative LED Temperature Sensing Shower

This LED shower head transforms your daily routine into a visually engaging experience by illuminating the water stream with colors that correspond to water temperature. Designed for safety and convenience, it utilizes advanced hydroelectric power generation, eliminating the need for batteries or external electrical connections. Its universal design ensures easy installation on standard shower hoses, making it a perfect upgrade for modern bathrooms seeking both style and functionality.

Technical Specifications

Power Source	Hydroelectric (Water-powered)
Material	ABS Plastic
Installation	Standard international interface
Maintenance	Yes

Temperature Indicators

Temperature Color Guide

Temperature Range	LED Color
d 32°C	Green
33°C - 41°C	Blue
42°C - 45°C	Red
e 46°C	Red (Flashing)

Key Features

Core Benefits	Temperature Sensing, Battery-Free, Easy Installation, Detachable, Safety Warning
