Product Overview

Professional Grade Suction Lifter

This lever-activated suction cup lifter is an essential tool for safely handling smooth, non-porous materials like glass, tile, and sheet metal. Featuring a high-strength design with a durable rubber suction pad, it provides a secure vacuum grip for heavy-duty lifting. The ergonomic lever mechanism ensures quick and reliable attachment, making it ideal for construction, manufacturing, and maintenance tasks.

Technical Specifications

Suction Cup Diameter	8 inch
Construction Materials	Plastic, Metal, Rubber
Mechanism	Lever-activated vacuum

Application Areas

Compatible Materials

- Glass
- Ceramic Tile
- Sheet Metal
- Smooth Plastics

Target Industries

Construction • Manufacturing • Maintenance • DIY
