

Lever Block Hoist

This lever block hoist is designed for heavy-duty lifting applications. It features a high-strength alloy steel construction and a precision-machined gear system for smooth operation.

Product Overview

HSH-A 620 Series Lever Block

The HSH-A 620 Series Lever Block is a robust and reliable lifting tool engineered for heavy-duty applications in construction, manufacturing, and maintenance. Featuring a high-strength alloy steel construction and a precision-machined gear system, this hoist ensures smooth, efficient, and controlled lifting. Its compact, lightweight design allows for easy operation in confined spaces, while the hardened alloy steel load chain provides exceptional wear resistance.

Construction & Durability

Safety Features

Integrated safety latch • Upper hook latch • Lower hook latch

Material

High-strength alloy steel, Hardened alloy steel chain

Performance

Design Advantages

- Compact design for confined spaces
- Lightweight construction
- Precision-machined gear system

Operation

Manual lever operation
