

Lever Hoist with Steel Wire Rope

Lever hoist includes a steel wire rope, hook, and telescopic handle, making it suitable for lifting and pulling heavy loads. It features a compact design, durable construction, and high load capacity.

Overview

High-Performance Lever Hoist

This lever hoist with steel wire rope is engineered for heavy-duty lifting and pulling operations. It features a compact, durable construction that ensures reliability in demanding environments. Equipped with a telescopic handle and robust hook system, it is an essential tool for construction, industrial, and agricultural applications.

Technical Specifications

Rated Capacity	40 kN
Hoist Type	Wire Rope Pulling Hoist

Features

Key Features	Telescopic Handle, Steel Wire Rope, Heavy Duty, Compact Design
--------------	--

Applications

Suitable For

- Construction Sites
- Industrial Facilities
- Agricultural Operations
