

Lever Type Load Binder

This lever type load binder is designed for tightening and securing chains during transportation. It is made from forged steel and features swivel hooks for easy attachment.

Product Overview

Heavy-Duty Lever Load Binder

This lever-type load binder is engineered for securely tightening and fastening heavy loads during transport. Constructed from robust forged steel with a protective red powder coat finish, it is designed for demanding environments like flatbed trucking, logging, and construction. Featuring swivel hooks for efficient attachment, this tool ensures reliable load securement and compliance with DOT regulations.

Compliance & Features

DOT Compliant, Forged Steel, Powder Coated, Swivel Hooks

Technical Specifications

Load Capacity & Dimensions

Chain Size (in.)	Working Load (lbs.)	Proof Load (lbs.)	Ultimate Load (lbs.)	Weight (lbs.)	Handle Length (in.)
1/4-5/16	2600	5200	7800	3.52	11.42
5/16-3/8	5400	10800	19000	8.37	15.43
3/8-1/2	9300	18400	28000	12.11	17.24
1/2-5/8	11000	22000	44000	19.7	21
