

Leverage Hedge Shears with Aluminum Handles

These hedge shears are designed for precise and efficient trimming. They feature high-carbon steel blades, a lever mechanism, and lightweight aluminum handles.

Product Overview

Professional Leverage Hedge Shears

These leverage hedge shears are engineered for precision and efficiency, making them an essential tool for maintaining hedges and shrubs. Featuring high-carbon steel blades and a specialized lever mechanism, they deliver increased cutting power with minimal effort. The lightweight aluminum handles and ergonomic grips ensure comfort during extended use, while adjustable blade tension allows for customized performance tailored to your specific trimming needs.

Technical Specifications
