

Levitating Bluetooth Speaker with LED Lamp

This levitating speaker combines audio with visual appeal. The UFO-shaped speaker floats above the base and includes an integrated LED table lamp.

Product Overview

Innovative Levitating Audio Experience

This unique UFO-shaped Bluetooth speaker combines cutting-edge magnetic levitation technology with functional ambient lighting. The speaker floats freely above its base, providing a visually captivating centerpiece for any home or office environment. With integrated LED lighting controls and high-quality wireless audio streaming, it serves as both a conversation starter and a practical table lamp.
