Overview

Reliable Li-ion Battery Charging Solution

This compact and efficient charger is engineered for the safe and reliable charging of 3.7V LiFePO4 battery packs. Featuring a robust enclosure with integrated thermal management ventilation, it ensures consistent performance during operation. The unit includes clear LED status indicators for monitoring the charging process, providing a professional and user-friendly solution for your power needs.

Technical Specifications

Compatible Battery Types

- 3.7V LiFePO4

Input Voltage	100-240VAC
Input Frequency	50 Hz
Output Voltage	4.2 V
Output Current	2 A

Features

Charging Status Indicators

Status	LED Color
Charging	Red
Fully Charged	Green

Usage Precautions

- Dry location use only
- Risk of electric shock
- Use only original battery cord
- Do not use with incompatible battery packs

Safety Certifications

CE
