Overview

High-Performance LiFePO4 Charger

The C1200 is a robust, high-efficiency battery charger specifically engineered for LiFePO4 battery systems. Designed for demanding applications, it features a durable aluminium alloy shell and supports a wide range of input voltages for global compatibility. With advanced safety certifications and reliable output performance, it is an ideal solution for electric bikes, motorcycles, scooters, and various industrial equipment.

Technical Specifications

Output Power	949 W
Output Voltage	73 V
Output Current	13 A
Input Voltage Range	110-132VAC / 200-264VAC
Cells in Series	20

Physical Attributes

Dimensions	264 x 120 x 89 mm
Net Weight	2.1 kg
Shell Material	Aluminium Alloy

Compliance & Support

Certifications

CE

Customization Options

- AC Plug customization
- DC Plug customization

Warranty

12 Months

Applications

Electric Bike, Motorcycle, Scooter, Cleaner, Golf Cart
