

# Light-Duty Commercial Vehicle with Cargo Bed

This is a light-duty commercial vehicle with a crew cab. It has a cargo bed with a cage-like structure and integrated fog lights.

## Product Overview

### Versatile Commercial Transport Solution

This light-duty commercial vehicle is engineered for efficient goods and material transport in urban and semi-urban environments. Featuring a robust crew cab configuration, it provides a practical balance between passenger capacity and cargo space. The integrated cage-style cargo bed ensures secure load management, while the ladder frame chassis provides the durability required for daily commercial demands.
