

Light-Duty Truck Cab

This is a light-duty truck cab designed for commercial vehicle applications. The cab includes essential components such as a windshield, side mirrors, and headlights.

Overview

Versatile Light-Duty Truck Cab Solutions

This light-duty truck cab is designed for urban and regional transport, offering a balance of functionality, visibility, and safety. Available in three distinct configurations—single-row, half-row, and dual-row—it caters to various cargo and passenger requirements. The cab features a robust construction with tempered glass and essential driver amenities, ensuring a reliable platform for commercial vehicle assembly.
