Product Overview

Light Duty Utility Bench Vise

This light-duty utility bench vise is an essential tool for general-purpose applications in workshops, garages, and home settings. Constructed from durable grey cast iron, it offers the stability and reliability needed for various light-duty tasks. The design includes replaceable, hardened steel jaw plates with a serrated pattern to ensure a secure grip on workpieces, while the smooth-sliding ACME screw mechanism provides precise clamping control.

Construction & Materials

Body Material	Grey Cast Iron
Finish	Blue powder coating
Corrosion Resistance	Yes

Clamping Mechanism

Jaw Plates	Replaceable, Hardened Steel, Serrated
Screw Mechanism	ACME screw

Features

Key Features

- Large integrated anvil
- Smooth-sliding operation
- Compact design for small workspaces
- Secure workpiece grip

Usage

Ideal For

Hobbyists • DIY Enthusiasts • Light-duty workshop tasks
