

# Lightweight General Purpose Working Gloves

These lightweight working gloves are designed for general use. The gloves provide excellent dexterity and grip, with a breathable material and coated palms and fingers for enhanced durability and comfort.

## ADDITIONAL IMAGES

## Product Overview

### Professional General Purpose Protection

These lightweight working gloves are engineered for high-dexterity tasks, featuring a 13GG seamless polyester shell for maximum comfort and breathability. The grey smooth nitrile palm coating ensures superior grip in oily environments while providing essential durability for varied applications. Designed for extended wear, they effectively reduce hand fatigue in light industrial and assembly settings.

## Technical Specifications

Shell Material	Polyester
Knit Gauge	13 GG
Coating Type	Smooth Nitrile
Coating Area	Palm

## Product Features

### Key Benefits

- Seamless shell construction for comfortable fit
- Excellent grip in oily conditions
- High tactile sensitivity for precision tasks
- Breathable material for extended wear
